What are cost of living payments?

These are payments from the Government to help people budget for the increase in energy prices. They are aimed at particular groups of people and most of them are paid automatically – this means they will appear in the same bank account that your state pension or benefits get paid into. They are grants, so do *not* need to be paid back and you can be eligible for more than one payment.

Payments that require you to be getting means-tested benefits are in grey. If your circumstances are complex, please get specific advice.

What if I have an issue or don't think I've been paid?

Firstly, check the grid to see if the payment period has passed and then check your bank statement for any additional payments. If it has been some time since the payment should have arrived with you and you cannot see it on your bank statement, use the grid to find the contact details of the organisation in charge of the payment and call them. It may take some time to get through on the phone, so be prepared for this.
